

KNIFE GATE VALVE

AL 48-XD

Description

AL 48-XD is a bidirectional type knife gate valve with non rising stem or rising stem. Available dimensions are DN 50-600, for mounting between flanges PN 10. The design gives a free passage for the media and no loss of pressure. The bidirectional designs simplifies the installation and eliminates problems with pressure differences in adjoining pipes. Suitable for abressive media with a high amount of solid particles. The U-shaped seat design improves the tightness. It is easy to change actuator without unassembly the valve.

Pressure / Temperature

Max. working pressure	Max. temperature seat and packing materials
DN 50-200 - 10 bar	NBR +80°C
DN 250-300 - 7 bar	EPDM +90°C
DN 350-400 - 6 bar	Viton +180°C
DN 450-600 - 4 bar	

Upon request max. working pressure 10 bar for DN 200-600.

AL 48-XDF - Non rising stem

AL 48-XDV - Rising stem

Part / Material specification

No	Part	Material
1	Body	Ductile iron GJS400 / CF8M Optional: Duplex 2205, SMO 254
2	Seat	NBR Optional: PTFE, Viton, EPDM, Silicone
3	Gate	SS 316 Optional: SS 316L, SS 316Ti, DUPLEX 2205, SMO 254
4	Packing	NBR Optional: PTFE, Viton, EPDM, Silicone
5	Screws and nut	A4
6	Push rods	SS 316
7	Plates	1.0580 Optional: SS 316
-	Stem	SS 316
-	Bearing	1.0401 Optional: SS 316
-	Hand wheel	1.0037
-	Pneumatic actuator (type AL 48-XDN)	Aluminium

Options

- Pressure class PN 16-64
- Dimension DN 700-1800
- Through going gate
- Scrapers
- Rectangular design
- Modulating design
- Chain wheel operation
- Quick action lever (for DN 50-150)
- Cylinder for water hydraulics
- Gear operator
